TRADANTE

The world's first gamified, social trading challenge ecosystem — where traders compete, earn funding, and get paid on-chain, in real time.

PLATFORM · THE CORE

SCALABLE ARCHITECTURE.

ONE CORE, ANY VENUE

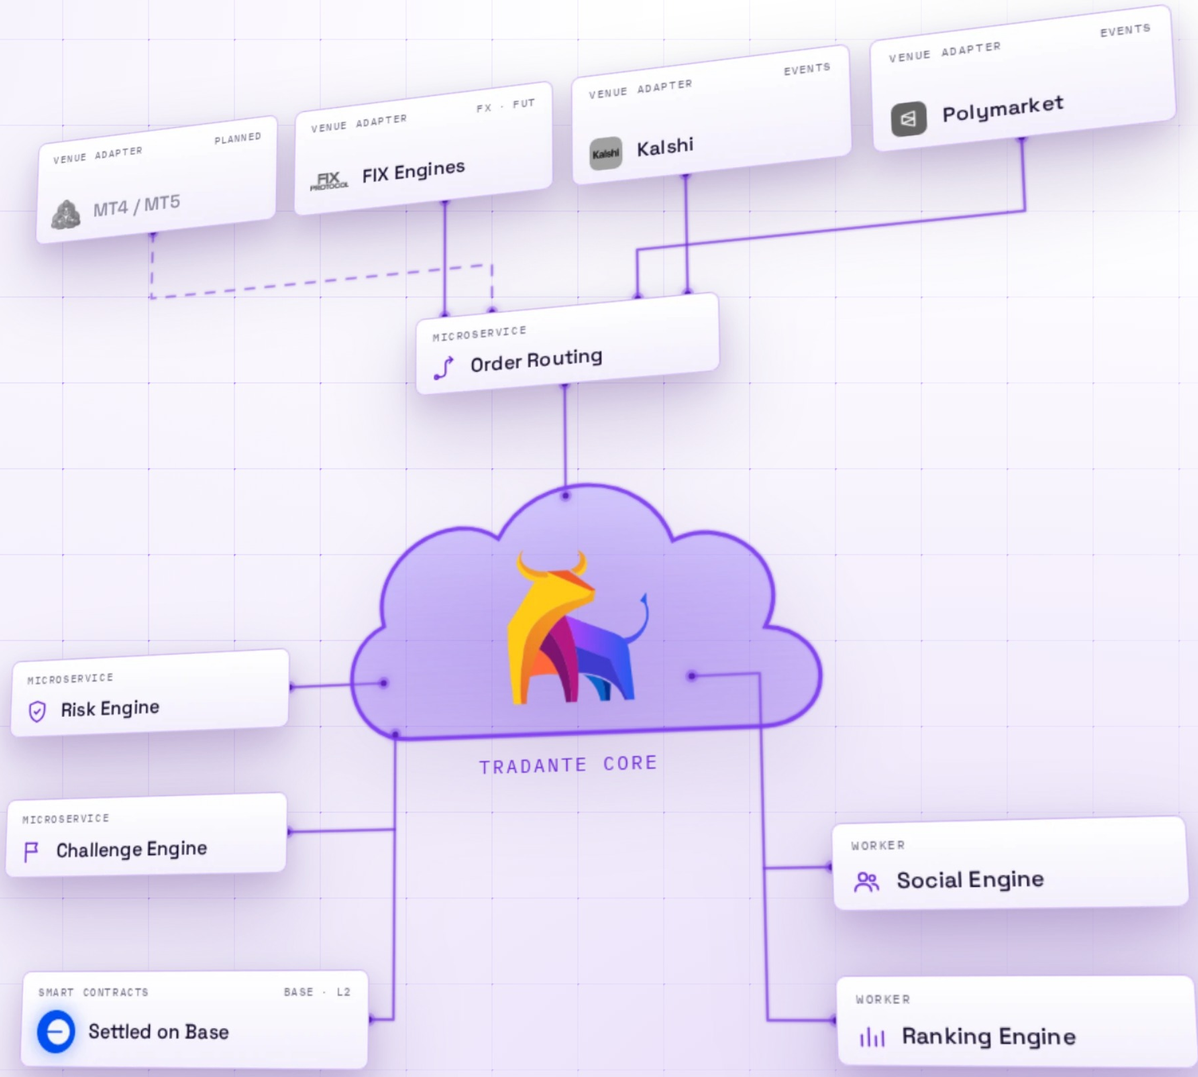

The Tradante core runs the terminal, the risk and scoring engines and the social layer. Orders leave through venue adapters; every payment settles on Base.

BUILT ON

AZURE · AZURE STORAGE · AZURE SQL · AZURE KEY VAULT · REDIS

TWILIO · SUMSUB · PAYPIPES · WALLETCONNECT · CHAINSTACK

TOOLS FOR BROKERS · ETHEREUM · C#

#SAVEDBYTHEBULL

PLATFORM · THE ENGINE

PROFESSIONAL-GRADE FRONT-END.

GAMIFIED ON TOP, PRO-GRADE UNDERNEATH

The games sit on top of a real trading terminal. Every order runs through the tools day traders expect — a live price ladder, charting, risk controls and full order management — across event markets, futures and FX.

Click & Trade
One click on the ladder places the order; one more cancels it.

Social Trading
See the community's positions in the book; follow and copy proven traders.

Advanced Analysis
100+ indicators, volume at price and a social-volume layer.

Order Management
Brackets, OCO, partial closes and flatten-all, across every account.

01 · CLICK & TRADE

#SAVEDBYTHEBULL

SOCIAL ORDER BOOK™

SEE WHO'S ON THE OTHER SIDE OF EVERY TRADE.

Every price level is a room full of real traders — ranked, leveled and verified. Click any row to meet them. Zero conflict of interest, zero hidden flow.

YOU CONTROL WHO SEES YOU

Public
Everyone in the community sees your orders on the ladder.

Followers only
Only traders following you see your book.

Private
Your orders stay hidden from the ladder completely.

FROM ROADMAP TO REALITY

PREDICTION MARKETS.

The first challenge and funding path built entirely on prediction markets — YES/NO event contracts, traded with pro tools.

PREDICTION-NATIVE BY DESIGN

Built on predictions

Every challenge path and every funded account runs on event contracts.

Connect your account (pending regulatory approval)

Link your own exchange account — book, positions and P&L live in the terminal.

Fully collateralized

YES + NO always equals $1 — max loss is the premium paid. No leverage.

PLATFORM · GAAS

GAMIFICATION AS A SERVICE.

The engagement engine that powers Tradante — scoring, competitions, ranks and rewards — packaged as a plug-in layer any broker, prop firm or prediction-market venue can switch on.

01 · EARN

ACHIEVEMENTS

Badges and crests for real trading milestones — first win, streaks, tournament victories. Earned, never bought.

02 · CLIMB

RANKS

Ten levels from Novice to Grand Mogul. Traders climb with their score and unlock bigger challenges on the way up.

03 · CONNECT

SOCIAL TOOLS

Profiles, follow and copy, crews and a shared order book — everything that gets traders talking to each other.

04 · GET FUNDED

FUNDED CHALLENGES

Pass a challenge, get a funded seat, earn payouts. The prop-firm path, ready to switch on for any venue.

GAMIFICATION CORE

THE TRADEPOINT SCORE (TPS).

Every closed trade earns Tradepoints. Profit sets the base; your rank and account type multiply it. TPS ranks you — USDC pays you.

WHY IT PAYS TO CLIMB

Higher rank, bigger multiplier

Every level raises the multiplier on every trade — the same profit earns more TPS at Level 8 than at Level 2.

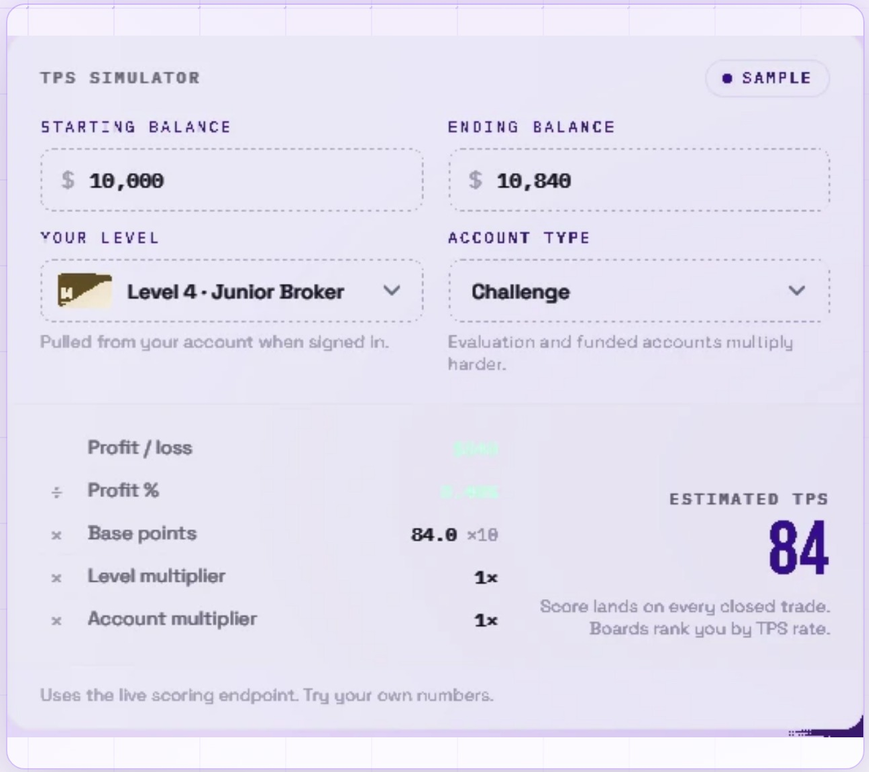

Achievements pay too

Crests and streaks add bonus TPS and unlock bigger challenges, boards and signal tiers.

Better seats, better money

Higher ranks get a bigger funded bonus and a higher payout share on funded accounts.

RANK UP → EVERYTHING SCALES

TPS MULTIPLIER	FUNDED BONUS	PAYOUT SHARE
↑ PER LEVEL	↑ PER RANK	↑ PER RANK

#SAVEDBYTHEBULL

SKILLS MEET REWARDS

TOURNAMENTS & COMPETITIONS.

Every pot equals the sum of its entries — pre-funded and verifiable on-chain.

TOURNAMENTS

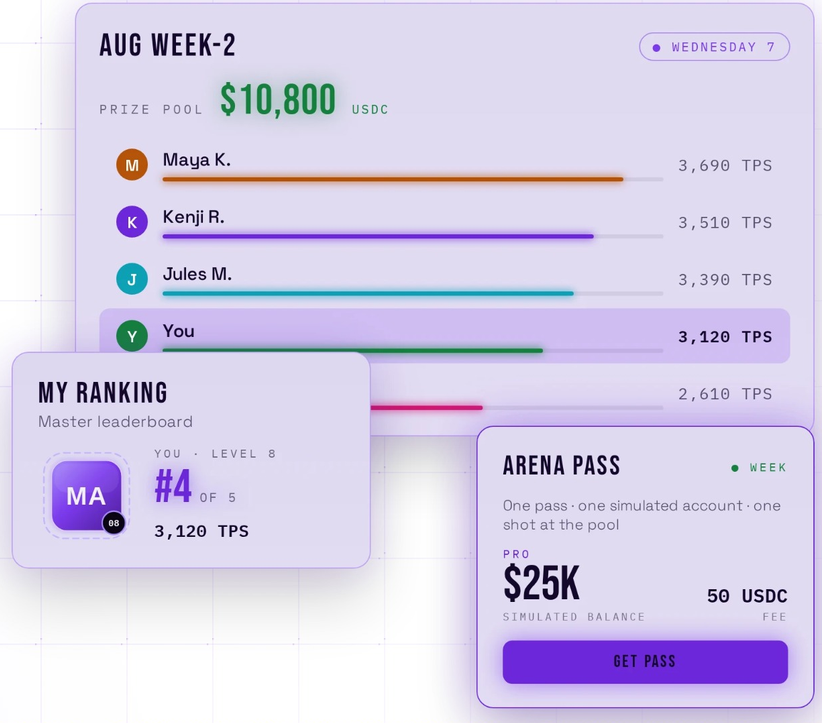

- Fully configurable — duration, level gates, symbols, venues
- Free events or paid entries that build the prize pot
- Automated lifecycle: activation, ranking, payout, refunds

ARENA PASS

- Day, Week or Season — each pass opens a fixed simulated account on its own board
- Pots pooled from passes and pre-funded on-chain
- Instant entry — every pass joins the live board

LEADERBOARDS

- One board per pass: Day, Week and Season, re-ranked live
- Ranked by TPS — skill and consistency, not account size
- At the close, the top of the board splits the pot in USDC

IN PROGRESS 1 — Jul 4, 2026
WINNER GZ gza... USDC 2,200.00 — 12,480 TPS
2ND CO cogene USDC 0.00
3RD RA Ranchero USDC 0.00

MASTERCHEF1 — Nov 30, 2025
WINNER CO cog... USDC 5,062.40 — 18,905 TPS

3RD RA Ranchero USDC 0.00

#SAVEDBYTHEBULL

CHALLENGES · FUNDED PROGRAMS

SUSTAINABLE PROP-TRADING.

Challenges you design, a risk engine that referees and smart contracts that pay — a funding path that scales without a back office or a conflict of interest.

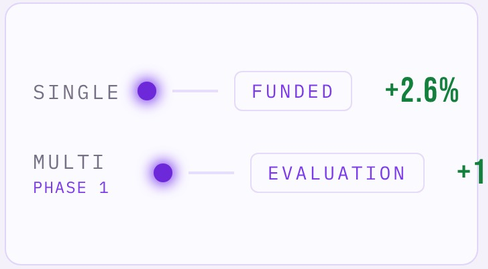

CUSTOMIZABLE

BUILD YOUR OWN CHALLENGE

Balance, margin, account size. Most challenges are fully customizable, so the test matches the way you actually trade.

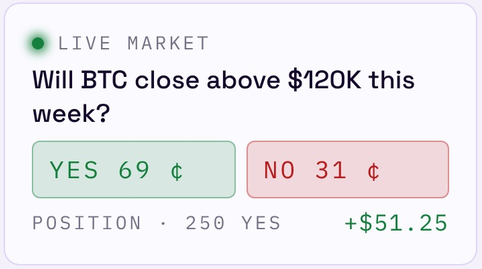

Open the challenge builder ↗

YOUR PACE

ONE STAGE OR SEVERAL

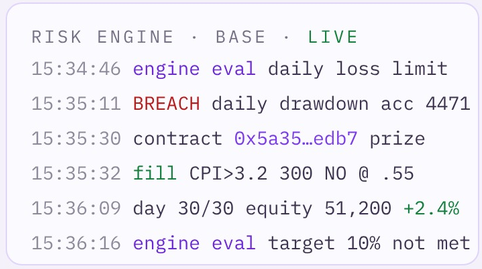

Single-stage sprint or a multi-stage path. Pick the structure that fits your style, not the one that fits the firm.

FIRST OF ITS KIND

FUNDED ON PREDICTION MARKETS

Tradante is the first funding path built entirely on prediction markets. Trade events, not just charts.

SMART-CONTRACT CONTROLLED

TERMINAL TO PAYOUT, NO HANDS

Trade in the terminal. Pass, fail and breach are called by the risk engine and settled by smart contract straight into the prize and funding pools. No waiting, no manual review.

A PROP PROGRAM THAT FUNDS ITSELF.

Every challenge purchase is split by smart contract the moment it clears. The program pays for its own rewards, technology and reserve — no outside capital, and never money it does not already hold.

01 · PURCHASE

$549

Challenge fee

USDC, for a simulated evaluation. Any path, any size.

02 · SMART-CONTRACT SPLIT · ON-CHAIN · BASE

65% Program allocation
Tradante's commitment to run the program

25% Tradante
Operating margin

5% Reserve · 5% Awards
Buffer · tournaments

03 · WHAT IT PAYS FOR

Performance Rewards

Up to 80%, calculated by reference to simulated profits — plus the risk engine, data acquisition and program development.

04 · WHAT COMES BACK

Signals & data

Funded traders publish their book and sell signals. Copy-trading revenue flows back into the reserve.

↩ THE LOOP CLOSES: SIGNAL REVENUE REFILLS THE RESERVE

RULE 01 **SOLVENT BY CONSTRUCTION**
IT CANNOT PROMISE MONEY IT DOES NOT HOLD.

RULE 02 **REWARDS BUY DATA, NOT P&L**
TPS RANKS YOU · USDC PAYS YOU.

RULE 03 **A COMMITMENT, NOT A POOL**
NO OWNERSHIP · NO CLAIM ON THE FUNDS.

AUTOMATED FUNDING

FUNDED BY CONTRACT, NOT BY HAND

When the risk engine confirms a pass, the smart contract activates the funded account and pays rewards in USDC. No review queue, no discretion.

PASS → FUNDED → PAID

CAPITAL SEAT

YOUR SEAT IS YOURS TO SELL

Funded status is a transferable seat. Keep it and trade, or sell it whenever you want at whatever the market pays.

SELL ANY TIME · ON-CHAIN

FUNDED PERK

SIGNALS EARN ON TOP

Funded traders publish their book and license signals to copy traders. Every subscriber adds revenue on top of the performance reward.

REWARDS + SIGNAL INCOME

THE STRUCTURAL MOAT

THE ON-CHAIN ECONOMY.

Every purchase splits on-chain into pools, each with a fixed purpose — nothing is paid that a pool does not hold.

EVERY CHALLENGE PURCHASE · SPLIT BY SMART CONTRACT

PROGRAM ALLOCATION — 65%

PAYS FOR

- → Funded-account backing
- → Performance Rewards (USDC)
- → Risk engine, data & signals
- → Program development

TRADANTE — 25%

PAYS FOR

- → Operations & team
- → Infrastructure & venues
- → Marketing & growth
- → Compliance & audits

RESERVE — 5%

PAYS FOR

- → Shortfall buffer for any pool
- → Fed by every revenue line
- → Passes, signals, challenges
- → Audit-visible on Base

AWARDS POOL — 5%

PAYS FOR

- → Achievement payouts
- → New-level bonuses
- → Login & streak awards
- → Seeds for event pools

CHALLENGE POOLS

One pool per challenge program. The 65% share of every purchase fills that challenge's own pool — funded accounts draw only from it.

PURCHASE
549 USDC
Orbits X Challenge fee

→

65% → ITS POOL
+357 USDC
Orbits X pool · on Base

→

FUNDED ACCOUNT
2,000 BACKING
Activates only when fully held

→

POOL SHORT?
SEAT #N IN LINE
Passer waits, never an IOU

LEADERBOARD POOLS

Arena Pass entries fund three standing pools. Each closes and pays its board on its own clock — day, week, season.

ARENA PASS FEE
50 USDC
Per simulated account · sample

WHERE IT STANDS · SEPTEMBER 2026

THE ARENA IS BUILT.

Private beta is live, the engine is proven, the pools are on-chain — what comes next is scale.

LIVE TODAY

- Private beta running — full platform
- Terminal: FX, futures & event markets
- Challenge & funded engine operating
- Vault contracts deployed on Base
- Deployable & replicable — launch your app in 3 days

NEXT

- Arena Pass & leaderboard pools launch
- Mainnet + independent contract audit
- Sports & political event markets
- Commercial partner onboarding
- Regulatory registration · NFA / CFTC

THE BUILD

- 4 cloud services + pro trading terminal
- 200,000+ lines of proprietary code
- Replication: 10 engineers × ~3 years
- 4 APIs · 1,000+ endpoints

#SAVEDBYTHEBULL
